

## Life Lugo + Biodynamic Program

### News 2016

**The European program Lugo + Biodynamic starts with 713.000 euro for this year.**

Tue, 02/02/2016 - 16:16

*The first step was to set up Steering and Monitoring Committees, which will made all decision about a project aiming at favoring sustainable urban planning and a better use of forest resources in the city.*

*USC will elaborate the technical project to declare the area of riverside forest between As Gándaras and O Ceao as 'Natural Area of Local Interest', in order to guarantee its conservation and to organize informative activities to said area.*

---

**Second meeting of the Steering, Management and Follow-up Committees of the Lugo + Biodynamic project, which will favour sustainable urbanism.**

Fri, 08/04/2016 - 17:17

*Among the different issues dealt with, the operating rules governing these bodies were given a green light, and progress was made in defining the process of contracting the management of the plan and its dissemination system.*

**The Mayor reviewed the state of the municipality, announced a plan for neighbourhoods of 1M€ and explained the modification of the guidelines concerning the access to the city center.**

Wed, 21/12/2016 - 19:53

*Lara Méndez said that much of the work in 18 months of government was devoted to get funding, reaching in record time around 22 M€ from Europe, that is to say, 1.2 millions per month.*
